Grant Assistance Program

GRAYSHIFT

Today's economic climate has made it more difficult for law enforcement agencies to acquire the funds and resources needed to purchase mission critical tools. Grants can supplement budgets, but applying for and securing grant funding can be nuanced, complicated, and time-consuming. The Grayshift Grant Assistance Program helps agencies locate, identify, and complete grant applications to purchase Grayshift solutions so they can focus on solving investigations swiftly and ensure public safety.

The Grayshift grant team will work with your department to identify your needs, assist with collecting necessary data, and work alongside you to complete the grant application process. This service is offered to you free of charge.

OUR PROCESS

ASSESS: We meet with you to discuss your agency's needs, review any existing grant materials, and, develop a plan.

RESEARCH: Once we define the grant project, we will research to help supplement your existing grant application or identify new grant opportunities.

WRITE: We will work closely with your team or designated point of contact to help you write the application to fit the grant requirements.

REVIEW: We will review and finalize the grant, working alongside your team or designated point of contact to ensure the information is accurate and current.

SUBMIT: Your team or designated point of contact must submit the grant application so you are the final point of contact in the grant submission chain. Grayshift will not submit grants on your behalf.

APPLIED FOR AND BEEN AWARDED GRANTS FOR THE FOLLOWING:

- Internet Crimes Against Children
- Project Safe Neighborhood
- Grants for Methamphetamine Investigations and Task Forces
- Grants for Heroin and Opioid Investigations and Task Forces
- Homeland Security Grants
- Community Oriented Policing Grants
- Forensics Recovery Grants
- And more

YOUR REQUIREMENTS:

- Identify a dedicated point of contact from your agency to work with the Grayshift grant writer
- Ensure your agency registers with Gov.com and Grants.com
- Provide your agency's UEI (DUNS), SAM, and Tax ID numbers
- Confirm that your agency is not delinquent on any federal accounts or funding
- Disclose required information for any current grants
- Work alongside the Grayshift grant writer to review and complete your grant application
- Submit your finalized grant application

Whether you are just starting your grant application process or need to add final touches to an application, our grant writing team provides you with the resources and services you need to help increase the success of securing your grant. We do not guarantee funding, but we will do everything we can to assist you in creating a successful grant application.
