

# Technology Alliances Program

## THE BEST RESULTS COME FROM COLLABORATION

Our mission is to help digital forensics teams access data, discover evidence swiftly so they can protect communities justly. The Grayshift Technology Alliances Program (TAP) furthers this mission - a digital forensics ecosystem built to foster technology partnerships. The program focuses on multi-vendor integrations and certifications, so together - we can empower customers to solve their evolving and complex digital forensics challenges.

## WHO IS THE TAP PROGRAM FOR?

TAP is designed for digital forensics hardware and software vendors who want to integrate or test their compatibility with Grayshift products. It's also intended for vendors who wish to leverage technologies to develop new solutions and foster a relationship with Grayshift.

## WHY PARTNER WITH GRAYSHIFT?

When tools are compatible, customers receive more profound insights and additional value from each respective product, helping them create a more efficient and cost-effective tool stack.

## TAP BENEFITS

-  Program onboarding
-  Technical support
-  TAP website presence
-  Announcement support (social media posts, blogs, and Grayshift media kit)
-  GrayKey extractions for testing/training
-  Joint marketing opportunities (webinars, solutions briefs, blogs, podcasts, etc.)\*
-  Integration testing

\*Joint marketing opportunities are available for discussion and must fall in-line with Grayshift marketing strategy before consideration and approval.

## TAP REQUIREMENTS

- Completed NDA and acceptance into the program
- Grayshift listed on TAP member website (if applicable)
- Dedicated business and technical contacts
- Quarterly check-ins
